## **PedalSnake Clamps**

Easy-to-mod (for a lifetime), PedalSnake and pedalboard become a rugged system. Use PedalSnake Clamps at the **Pedal End** (PSClamps under *Accessories*). Two clamps, 2 screws, 2 bolts, and 2 washers. Strong enough to lift a pedalboard by its PedalSnake.

Jake Morelli (Bruno Mars, Ed Sheeran, etc.) rocks a 7-channel PedalSnake system with: Stereo amps, wireless, FX loop, two amp footswitches, 24VDC PowerLine to Strymon Ojai R30 power supply. Fast, clean, ultra quiet, Tour Prep by PedalSnake.

The Elegant Solution:
Quieter, cleaner, faster
Light, flexible, low
voltage cable
Novel use of shielded
pairs with LoZ pedal output buffers
Configurable for easy mods

## **Amp End Straps**

Amp End Straps(AEStraps under Accessories) quickly and safely secure the Amp End to the back of an amp. Located to best reach all connections also provides strain relief. Custom design Velcro Straps won't snag amp cases or covers, and tiny screws are gentle on amp cabs.
